

GLYPHOSATE-RESISTANT KOCHIA MANAGEMENT IN SUGARBEETS

Robert Wilson
and
Andrew Kniss

A glyphosate-resistant kochia plant tumbled through a no-till field sprayed with glyphosate.

- ❖ Glyphosate-resistant kochia has been confirmed in Colorado, Nebraska, and Wyoming
- ❖ The key for successful kochia management is to add diversity to your weed management programs especially early in the growing season

- a) Add herbicides with soil residual that provide kochia control like Nortron @ 32 oz/A
- b) Diversify herbicide programs by never using glyphosate alone, tank mix it with herbicides with different modes of action that have efficacy on kochia such as UpBeet @ 0.5 oz/A or Progress @ 32 oz/A
- c) Develop proactive kochia control programs in crops grown in rotation with sugarbeet

Managing Glyphosate-Resistant Kochia in Western Nebraska and Southeastern Wyoming

Adding Herbicide Diversity in Corn for Kochia Control			
Herbicide used in corn	Rotational Crops		
	Sugarbeet	Dry bean	Small grain
----- (months) -----			
Preemergence			
Sharpen @ 2 oz/A + Prowl H ₂ O @ 32 oz/A	12	12	4-12+
TripleFlex @ 1.5 pt/A	24	12	4
Valor @ 2 oz/A	12	3	3
Verdict @ 12 oz/A	12	12	4
Zidua @ 2 oz/A + Prowl H ₂ O @ 32 oz/A	12	?	?
Postemergence with glyphosate			
Armezon @ 0.5 oz/A	18	9	3
Clarity @ 8 oz/A	4	4	1
Laudis @ 3 oz/A + Buctril @ 6 oz/A	18	12*	4
Prowl H ₂ O @ 32 oz/A	12	0	4-12+
Require Q @ 4 oz/A	10	10	9
Resolve Q @ 1.2 oz/A	10	10	9
Status @ 5 oz/A	4	4	1
Starane Ultra @ 7 oz/A	12	12	4
*Crops grown under sprinkler irrigation		+ 12 months for oats	

Adding Herbicide Diversity in Small Grains for Kochia Control			
Herbicide used in small grain	Rotational Crops		
	Sugarbeet	Dry bean	Corn
----- (months) -----			
Postemergence			
Bronate Advanced @ 19 oz/A	2	1.5	1
Huskie @ 13.5 oz/A + MCPA @ 12 oz/A	9	9	9
Starane NXT @ 14 oz/A	12	12	12

Adding Herbicide Diversity in Dry Bean for Kochia Control			
Herbicide used in dry bean	Rotational Crops		
	Sugarbeet	Corn	Small grain
----- (months) -----			
At planting			
Prowl H ₂ O @ 32 oz/A	12	12	4-12+
Sonalan @ 32 oz/A	12	12	12
Postemergence			
Raptor @ 4 oz/A + Basagran @ 16 oz/A	18-26*	8.5	4-9+
*Dry bean grown under sprinkler irrigation		+ Oats more sensitive than wheat or barley
