Jonathan Eslinger
Control Systems
Engineer
Hillsboro Factory

Eslinger Accepts Control Systems Engineer at American Crystal

Jonathan Eslinger has accepted the position of Control Systems Engineer at American Crystal Company's Hillsboro factory.

In this position, Eslinger will be responsible for identifying, recommending and programming instrumentation and controls changes to increase factory throughput and sugar recovery.

Eslinger has a Bachelor of Science degree in Electrical Engineering from the University of North Dakota. He was previously employed with Winn-Marion as a programmer.

American Crystal is a grower-owned cooperative and the nation's largest beet sugar producer with operating facilities in Moorhead, Crookston and East Grand Forks, Minn.; Hillsboro and Drayton, ND; and Sidney, MT.
