

Drayton Factory VersaLime Information

Production & Mined VersaLime

The Drayton Factory will have production VersaLime available for pickup.

Loading Fee

There is no loading fee.

Paperwork

Customers must fill out required paperwork prior to picking up lime for a particular site. Review and/or return the following documents:

- Lime Removal Agreement. Each year, customers must review, sign and return this agreement.
- Site Suitability Checklist. Customers must complete and return one form for every site where VersaLime is going to be applied.
- **American Crystal Sugar Company reserves the right to inspect sites to ensure suitability requirements are being adhered to.**
 - Email: Byproducts@crystalsugar.com

The First Load

Prior to picking up your first load, please complete and return your paperwork. You will then be sent a card with a number that corresponds to a specific field. Once you receive your number(s) you are free to pick up loads. Trucks can proceed directly to the loading site. Drivers will need to show their assigned number card to the loader operator prior to receiving each load. Please make sure you show the number that corresponds to the field you plan to take the load to.

Loading Hours

Typical loading hours are from 8 AM to 5 PM Monday-Friday, March 15th through around November 1st.

VersaLime Load Out Messaging

Customers who wish to receive information on VersaLime loading can sign up for text messaging and/or email notifications, section provided in the registration paperwork. Notices will go out when there is a change in loading time.

VersaLime Information

Additional information and required paperwork can be found at our website:
