Argyle Station Grower,

2026 Prepile harvest for the Argyle station is scheduled for **September 16-18 & 21st – 25th**. This is subject to change with weather and factory operation variables. We will open at 8:00 AM (unless otherwise noted) and go until updated closing times are sent by text and posted in scale house windows. Opening and closing times, as well as Group start dates may change.

The Argyle quota as of now is 6.4 tons per contracted acre to the site. If you would like to give away, transfer, or take on additional tons please call your Agriculturist so we can assist you and fill out the necessary prepile quota transfer forms.

To help spread out truck numbers during prepile, the piling site has been broken down into 2 groups. The first group will consist of Growers with less than 360 contracted acres to the Argyle piling site. The second group will be growers with over 360 acres contracted to the Argyle piling site.

A practice that seems to work well during harvest that we will continue to do is have truck drivers tell the scale house which piler they went to. Crew members will still approach the trucks at the piler, but only if your truck driver has a sample ticket. IN and OUT weight slips will be handed out through the scale windows.

Also included within this mailing are prepile schedules, prepile group designations, campaign truck numbers, and contact information.

Thank you and as always, have a safe and productive harvest season.

Argyle Truck Haul Committee

NOTE: We will have harvest information available on the internet, text messages, and phone systems. You can call 1-888-343-2338 to check harvest information. When calling the Beet Harvest Information recording, you will reach a voice mailbox system. The code for Argyle is 24
