Dear Pressed Pulp Customer,

This year's processing campaign is expected to be shorter than average due to lower-than-expected sugarbeet yields. Given the lower yields, our factories will prioritize sugar recovery, which will likely reduce the amount of pressed pulp available for sale this campaign.

Effective November 1, pressed pulp pricing will be as follows:

- Moorhead, Hillsboro, and Drayton: $5 per ton
- East Grand Forks and Crookston: No charge through November

We appreciate your business and understanding as we manage product availability during this year's campaign. Please contact us with any questions regarding availability or scheduling.

Sincerely,

Byproducts Team
American Crystal Sugar Company
